# about us

Atlas Living was created to offer bespoke building and refurbishment solutions in London. We understand that each project is unique and our project management service provides a client centred approach throughout the life of a project.

With just one point of contact from the very start, your project manager is on hand to answer all your queries and update you on the progress daily.

We only work with trusted and qualified tradesmen who are as committed to our client's needs as we are. Our in-house architect will work with you to ensure that your property is designed to the very highest of standards and meets every one of your requirements.

# what we do?

Some of the services we offer include:

- Project management
- Architectural design
- Interior design
- Carpentry
- Building
- Plumbing
- Electrics
- Decorating
- Painting
- Loft/basement conversions
- Extensions
- Planning permission

# how we work

- 1** **Step 1 - Pick up the phone**  
To discuss your needs, budgets and time scales just pick up the phone to speak directly to one of our project managers. We'll also visit you at home at no cost to you.
- 2** **Step 2 - Design and Plan your project**  
Preparation is important, we will help you design and plan your project. Once agreed we will draft a quotation for you.
- 3** **Step 3 - Discuss and revise**  
We'll discuss the works in detail, agree a start date and make any changes you want to the design.
- 4** **Step 4 - Get the ball rolling**  
Once you're happy everything your project manager will make all the necessary arrangements and the work will start.
- 5** **Step 5 - Done and dusted**  
Upon completion, we will provide a complimentary professional cleaning service.

# Commercial St. EC1

2 Bedroom flat overlooking Spitalfields Market was in need of modernisation.

Our client approached us to update his tired, recently purchased flat and to maximise and re-design his cramped bathroom into a stylish wet room. We installed a new boiler and shower pump which allowed him to have the wet room he was looking for. The outside space needed a revamp, as did the flooring throughout the property. A full refurbishment was also carried out in the kitchen, bedrooms, living room, hallway and WC.

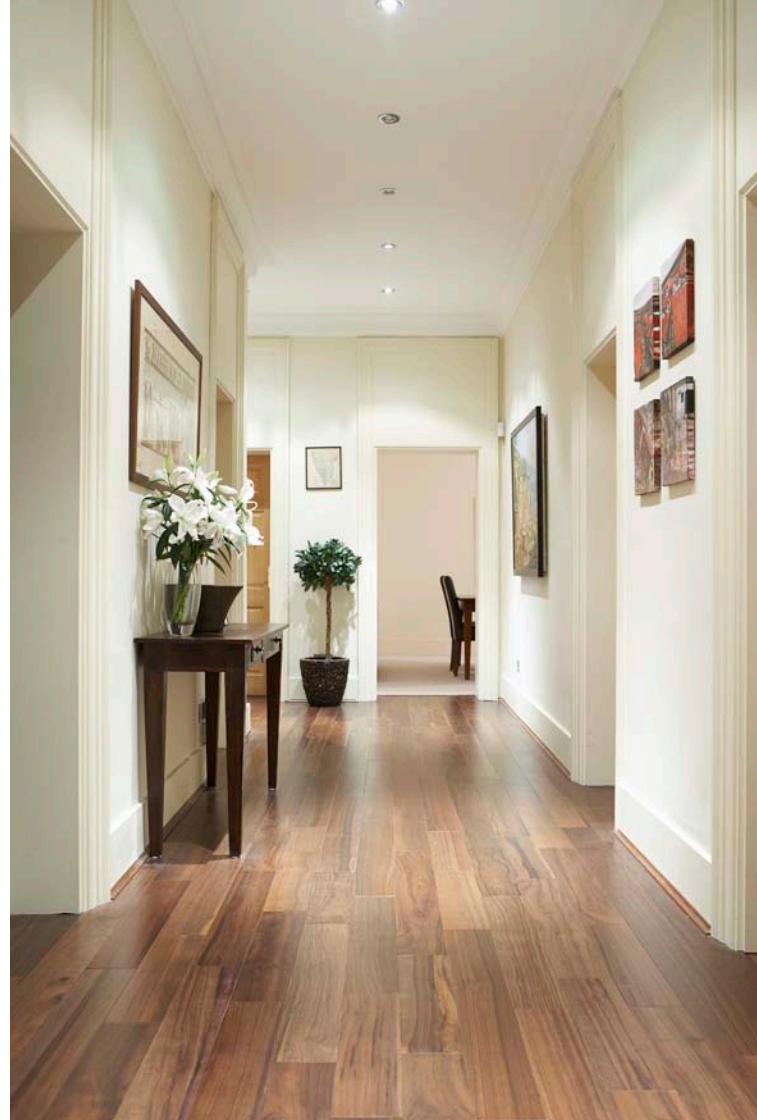

# Marylebone NW1

A run down former multi let student flat in need of full refurbishment situated just off Marble Arch.

The client had very high expectations and wanted Atlas Living to manage the whole process, including sourcing bespoke furniture, installing a complete home media system and redesigning and fitting a new kitchen.

Atlas Living was on site everyday ensuring each stage of the project ran smoothly and that all deadlines were met.

## Notting Hill W2

A 2-bedroom flat in Notting Hill required a full modern refurbishment throughout.

Our client's aim was to maximise the space in the bathroom, kitchen and bedroom.

The project involved everything from a new layout design, incorporating clever storage solutions, to fitting natural wood flooring throughout the kitchen, hallway and sitting room, taking all the hassle and stress away from the client.
