City, E1

Brief

2-bedroom flat overlooking Spitalfields Market was in need of modernisation. Our client approached us to maximise and re-design his cramped bathroom into a stylish shower room. The outside space needed a revamp, as did the flooring throughout the property. A full refurbishment was also carried out in the kitchen, bedrooms, living room, hallway and WC.

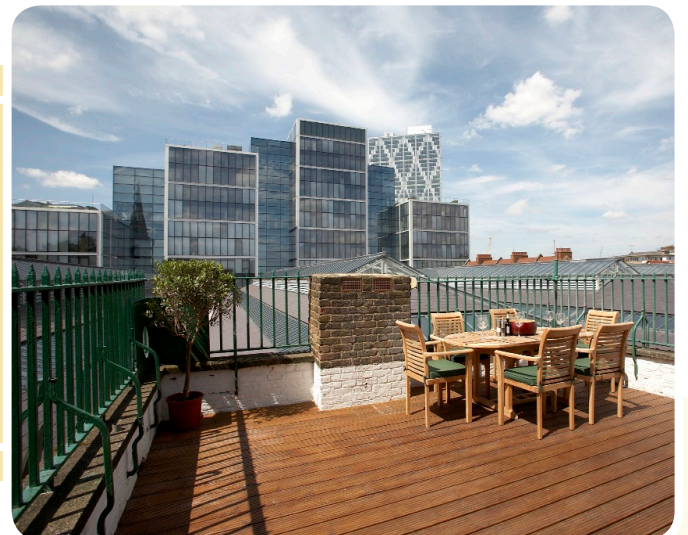

Summary

With a 4-week timeframe the refurbishment also involved replacing all downlights and repainting all rooms. The boiler was replaced and relocated from the WC wall into a hidden loft void, which opened up much-needed space. The kitchen layout was re-designed to incorporate a single-drawer dish-washer by the kitchen sink to maximise space, as well as the relaying of the kitchen slate tiles.

Details

As per the brief, we created a unique wet-room which was fully tiled in green slate with a bespoke glass wet-room door. The outside space was cleared and re-laid with new decking, incorporating planters, a dining and barbeque area.
